LIGHTING

“There’s no beauty without great lighting. Beauty is never loud. It hides in details, in shape, in moments, in light. Great lighting allows us to see what was always there and to transform it into something beautiful.”

FROM BELGIUM WITH LOVE

In Belgien liegt nicht nur der Duft von frischen Waffeln und Schokolade in der Luft – auch die Liebe zu gutem Design. Hier treffen kreative Köpfe auf eine lange Designtradition, verbinden Handwerkskunst mit moderner Ästhetik – und schaffen Licht, das Geschichten erzählt und Räume strahlen lässt.

En Belgique, ce n’est pas seulement le parfum des gaufres et du chocolat frais qui flotte dans l’air – c’est aussi l’amour du bon design. Ici, des esprits créatifs rencontrent une longue tradition du design, mêlant artisanat et esthétique moderne – pour une lumière qui fait rayonner les espaces.

Des spots orientables comme LECA créent des accents élégants, non seulement dans les hôtels mais aussi à la maison. FOLLOW THE LINE

Auf den ersten Blick wirkt FINLIN wie eine moderne Skulptur. Doch hinter dem filigranen Design stecken feine Aluminiumrohre, die für eine elegante Optik sorgen. Ob als Decken-, Pendel-, Steh- oder Wandleuchte – FINLIN überzeugt in Schwarz, Gold oder edlem Champagner.

À première vue, FINLIN ressemble à une sculpture moderne. Mais derrière son design délicat se cachent de fins tubes en aluminium pour un rendu élégant. Qu'elle soit plafonnier, suspension, lampadaire ou applique, FINLIN séduit en noir, or ou champagne raffiné.

LIGHT A MATCH

Na, schon Feuer gefangen? Kein Wunder. Denn die Leuchten der MATCH-Family sind schlank wie Streichhölzer und lassen sich so ganz gezielt auf Objekte richten. Perfekt, um Bilder und Regale zu highlighten, bessere Sicht auf den Lieblingskrimi zu haben oder die Bar gekonnt in Szene zu setzen. Und das alles in einem klaren und einheitlichen Design.

Alors, vous avez flashé ? Pas étonnant. Les luminaires de la famille MATCH sont élancés comme des allumettes et peuvent être dirigés précisément vers les objets. Parfaits pour mettre en valeur des tableaux et des étagères, améliorer la visibilité de votre roman préféré ou sublimer votre bar. Et tout cela avec un design clair et uniforme.

LITTLE BLACK LAMP

Sie versprüht den Charme der 50er – und wir reden nicht von Audrey Hepburn, sondern von unserer Leuchte ODREY. Ein echtes Must-have für jede Cocktailparty: wandelbar wie ein Filmstar und in schimmerndem Gold ebenso umwerfend wie in elegantem Schwarz, Bronze, Weiß oder Aluminium.

Elle dégage un charme des années 1950 – et nous ne parlons pas d'Audrey Hepburn, mais de notre luminaire ODREY. Un véritable indispensable pour toute soirée cocktail : aussi polyvalente qu'une star de cinéma et aussi éblouissante en or scintillant, qu'en noir élégant, en bronze, blanc, ou en aluminium.

Schlichte Einbauleuchten rücken dezent in den Hintergrund und setzen jeden Raum perfekt in Szene. Doch niedrige Decken oder wenig Platz machen den Einbau oft schwierig. Die Lösung: besonders flache Einbauleuchten von Wever & Ducré – kompakt, stilvoll und ideal für Renovierungen und kleine Apartments.

Des luminaires encastrés discrets restent élégants en arrière-plan tout en sublimant chaque pièce. Mais les plafonds bas ou l'espace limité compliquent souvent l'installation. La solution : des luminaires encastrés ultra-plats de Wever & Ducré – compacts, élégants et idéals pour les rénovations et les petits appartements.

DEEP CONNECTIONS

DEEP und DEEPER liefern klassisches Downlight für Flur, Wohnzimmer oder Bad – auf Wunsch auch als IP44 oder IP65 für spritz- und strahlwassergeschützte Anwendungen. Ergänzt wird die Familie nun durch DEEP IQ aus 3D-gedrucktem Material sowie die nahezu unsichtbaren Trimless-ADJUST-Varianten.

DEEP et DEEPER offrent un éclairage directionnel classique pour les couloirs, salons ou salles de bain – en option en IP44 ou IP65 pour une protection contre les éclaboussures et les jets d'eau. La gamme s'enrichit désormais de DEEP IQ en matériau imprimé en 3D, ainsi que des variantes ADJUST sans cadre presque invisibles.

THEY'RE FUN TO BATHE WITH

IP44-Leuchten sind optimal vor Spritzwasser geschützt, IP65 sogar vor Wasserstrahlen – perfekt für Bad, Dusche oder SPA. Für wenig Platz eignen sich flache Modelle, die auch in niedrigen Räumen glänzen. Übrigens: Beide Schutzarten gibt es nicht nur als Spots, sondern in vielen weiteren Ausführungen.

Les luminaires IP44 sont parfaitement protégés contre les éclaboussures, les IP65 même contre les jets d'eau – idéals pour salles de bain, douches ou espaces bien-être. Les modèles plats conviennent aux petits espaces et plafonds bas. Les deux protections existent d'ailleurs en de nombreux formats, pas seulement en spots.

Schienensysteme sind einfacher als gedacht: 1-Phasen-Schienen steuern alle Leuchten gemeinsam, 3-Phasen-Schienen erlauben die separate Bedienung von Strahlern, Insets und Pendeln. Das 48-Volt-System bietet maximale Flexibilität für verschiedene Leuchten – und lässt sich bequem per Smartphone steuern.

Les systèmes sur rail sont plus simples qu'ils n'en ont l'air : les rails 1 phase contrôlent tous les luminaires ensemble, tandis que les rails 3 phases permettent de gérer séparément spots, modules et suspensions. Le système 48 volts offre une flexibilité maximale et se commande facilement via smartphone.

mounting

weverducre.com/strex-configurator

Discreetly hidden in the ceiling, as a striking surface-mounted option, or floating freely in the room – with three mounting types you'll find the right solution for any space. Tip: sketch your project and note where the track should run and which zones you want to highlight for a clearer overview.

driver

weverducre.com/strex-configurator

A driver regulates the current flowing through your LED lights, preventing overheating and unwanted flickering. Which is best suited to your STREX system depends on the chosen installation. The most elegant solution is an in-track driver, but many other variants are also available.

GOOD TO KNOW
Electrical components of champagne or bronze connectors and drivers will be black.

HOW TO CONTROL MY STREX SYSTEM

Das Großartige am STREX-System? Es bietet unzählige Möglichkeiten. Das Schalten oder Dimmen Ihrer Leuchten ist mit DALI ganz einfach. Wenn Sie kein fest verdrahtetes System installieren möchten, wählen Sie eine flexiblere Lösung – alles, was Sie benötigen, sind ein Casambi-Steuermodul und kompatible DALI-Module.

Qu'est-ce qui rend le système STREX si intéressant ? Il offre d'innombrables possibilités. Allumer ou varier l'intensité de vos luminaires est très simple avec DALI. Et si vous ne souhaitez pas installer un système câblé, optez pour une configuration plus flexible – il vous suffit d'un module de commande Casambi et d'inserts DALI compatibles.

OH, HOW ROMANTIC

Wer Belgien besucht hat, kennt die romantischen Landhäuser mit hölzernen Fensterläden, in die man am liebsten sofort einziehen würde. Ihr verspielter historischer Stil macht sie so warm und einladend – mit Elementen von handgefertigten Möbeln bis zu den traditionellen Leuchten der neuen CLASSIC COLLECTION.

Qui a visité la Belgique connaît ces maisons de campagne romantiques aux volets en bois, dans lesquelles on voudrait aussitôt s'installer. Leur style historique et ludique leur confère une atmosphère chaleureuse – des meubles faits main aux luminaires traditionnels de la nouvelle CLASSIC COLLECTION.

ONE DRIVER IS ALL YOU NEED

Sie setzen Fassaden in Szene, beleuchten den Garten und machen Wege im Dunkeln sichtbar – moderne Outdoor-Leuchten sind echte Alleskönner. Mit dem 24V Plug & Play Connector System gelingt die Installation besonders leicht: Steckdose, passender Treiber und schon lassen sich mehrere Leuchten anschließen.

Elles mettent les façades en valeur, éclairent le jardin et rendent les allées visibles la nuit – les luminaires extérieurs modernes sont de véritables polyvalents. Avec le système 24V Plug & Play, l'installation est simple : une prise, un driver adapté et plusieurs luminaires se connectent facilement.

POLA
page 889

Two, three, four, or even more, the choice is yours! The number of lights and the sum of their individual wattages is the first thing you need to know to get started with your Plug & Play Connector System.

GOOD TO KNOW
24V Plug & Play Connector System recommends adding 2 or more luminaires to the driver.

2 DEFINE THE DISTANCE BETWEEN DRIVER AND LUMINAIRE

Adjacent or far away. The distance between the driver and the first light is very important as it determines the further options of your 24V Plug & Play Connector System lighting solution. You can find detailed information about your options at weverducre.com/24V-cable-length

GOOD TO KNOW
Each driver is supplied with two 2.5m cables, one for each side.

What's that? A whole new product range, and already several project references? See it this way: Inspiration is key to success in design, so what we care for most is inspiring you and showing you the potential of what we at Wever & Ducré do. Thus, we took the liberty of editing some (original) images to give you an impression of how our luminaires improve living, office, outdoor, and other spaces. These pictures are marked with (V)
